Ready-to-apply vinyl application instructions

Clear Mask

Vinyl Decal

Release Liner

Step 1

Masking Tape

Apply a piece of masking tape to each corner on the top of your decal and adjust until your graphic is level and centered where you want it to be.

Step 2

when the graphic is in the correct position, apply a long strip of masking tape to the top edge (or side) to create a "hinge".
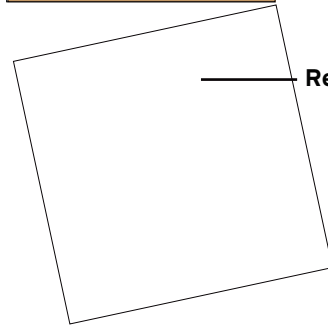

Step 3

Clear Mask & Vinyl Decal Together

Release Liner

Separate the clear mask & vinyl decal from the release liner

Step 4

Discard the release liner.

Release Liner

Step 5

Using a vinyl squeegee or similar piece of plastic, slowly work your way across the graphic starting at the hinge while holding the bottom end of the graphic away from the surface with your free hand.

Step 6

Remove the clear mask from the decal at a 45 degree angle.
